

## Introducing the LobbyGuard Versa

A compact self-service visitor management kiosk based on the Microsoft® Surface Go tablet. With a 10.1" screen and weighing less than 10 lbs. the Versa can be easily deployed into any school or office environment.

Unlike other tablet kiosk solutions the Versa provides port expansion with 2 available USB ports, Ethernet jack and external monitor support. Supports instant 100% accurate driver license/ID scanning and prints visitor badges with visitor photo, name, person visiting and other important information.

The Versa runs on the Microsoft Windows 10 IoT operating system allowing it to integrate seamlessly & securely into most any LAN or WAN environment.

Includes visitor badge printer that can be attached directly to the LobbyGuard Versa Kiosk, or attach the printer the front desk PC and provide security personnel an opportunity to review the printed badge.

Photograph your visitors with the included high-res camera for an accurate representation of the visitor's appearance.

The LobbyGuard Versa can scan any US state driver's license/ID with 100% accuracy in less than one second with the included bar code scanner.
