

Expedite Visitor Sign-In with a Contactless Experience

LobbyGuard® visitor management systems give you full line of sight to every single visitor who enters your facility. With contactless sign-in, visitors simply scan the QR code at your facility and follow the guided welcome journey to complete the process and receive a printed badge.

A fully mobile sign-in helps keep your workplace safe and streamlines your visitor sign-in process.

- ✔ **Create a Contactless Experience**
Reduce surface touchpoints to better protect your employees, contractors, and vendors. Visitors can upload a photo directly from their device.
- ✔ **Expedite Sign-In**
Visitors use their own mobile device instead of the on-site kiosk eliminating lobby congestion.
- ✔ **Run Instant Screenings**
Complete background checks and COVID-19 health screenings for all visitors, vendors, and contractors. You can also include Terms & Conditions with signature support.
- ✔ **Initiate Badge Printing from a Mobile Device**
Upon completing the sign-in process, your visitor's badge will be waiting at the kiosk.

Operates on iPhone, iPad, and popular Android devices such as Samsung Galaxy and Google Pixel

Visitors scan the QR code at the facility.

They select their persona (i.e., visitor, contractor, employee, etc.).

Visitor completes Covid-19 health screening. Staff automatically receive an alert if a visitor fails.

They scan their Driver's License for the background check.

Visitor collects the badge at the Lobbyguard kiosk.

Details are instantly captured and stored in the LobbyGuard system to facilitate contact tracing.
